BATON DINING

Baton takes its inspiration from the endless flow of the infinity symbol. It is conceived of identical segments, each one resting on the next to produce impressive rigidity within a delicate, modern aesthetic. When assembled, Baton's innovative base forms a seamless ring of support with no clear beginning or end.

Baton Tables and Chairs are crafted in solid American black walnut hardwood or cherry hardwood with five finishes* or oak hardwood with five finishes* The tables and chairs in walnut are finished with a low sheen (10 sheen) topcoat. The finish is **GREENGUARD Certified** for low chemical emissions.

*Natural variations in solid wood and hand-applied finishes make each piece unique. Slight grain and finish irregularities as well as subtle differences in stain shades are signs that the furniture has been crafted from solid wood and are considered hallmarks of quality. Products selected in Natural Oak display a variegated range of colors from blonde to light brown.

Marc Boudreau grew up near the sea on the Quebec eastern coast where he first learned to work with wood in his father's workshop. For reasons he can't quite explain, furniture design has always been a passion.

Throughout his career, Marc has contributed to numerous commercial successes and has received several design awards in recognition of his work. With over 25 years of experience in product design, he spent few years in the industry before establishing his own studio in Quebec City in 2002.

Since then, he has collaborated with various American and Canadian companies to create residential furniture, urban furnishings, and playground equipment.

As a designer, his greatest strength lies in his creativity. He is driven by the pursuit of simple, innovative concepts that align with his clients' philosophies and enhance their brand image.

Extension Tables

Extension tables incorporate self-equalizing, ball bearing extension glides and a single 24" self-storing butterfly leaf for single handed operation.
